finnfemfel

is a joint platform for the individual members for collective projects. Ideas are developed, organized and realized through collaboration; thus the results cannot be seen as individual expressions.

The projects are either simulations or are based on aspects of narrative, but they still contain grotesque, fictive, documentary and humorous/comic elements. Differences that result from the members' own artistic praxis and geographical distribution are positive factors that enrich our projects.

2015 Artist in Residence November 2015 - June 2016, Stiftung Bartels Fondation - zum kleinen Markgräflerhof, Basel (CHE)
